Remarks

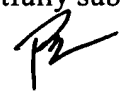
The Applicants have amended Claim 1 to correct a minor typographical error concerning the first occurrence of "wherein."

The Applicants have amended Claims 1 and 4 to delete the phrase "with finish delivery temperature at 800 to 900° C." Support for removal of that language may be found in the paragraph spanning Columns 6 and 7 of the Specification. Specifically, that paragraph states that the rolling material is heated and hot-rolled to form a hot-rolled sheet. The finish delivery temperature is said to be "preferably" 800 to 900°C. However, it is not necessary. Entry into the Official File of those amendments to Claims 1 and 4 is accordingly respectfully requested.

The Applicants also enclose a Supplemental Declaration in accordance with 37 C.F.R. §1.175(b)(1).

In light of the foregoing, the Applicants respectfully request examination on the merits and allowance of the Application.

Respectfully submitted,



T. Daniel Christenbury
Reg. No. 31,750
Attorney for Applicants
